# GAEAU DÉVELOPPEMENT, A COMPREHENSIVE SOLUTION FOR YOUR PROJECTS

## ▶ A FAMILY BUSINESS WITH COMPLEMENTARY EXPERTISE

The Gaeau Développement group has been committed to the environment in the water management business since 1991. We are active in France and worldwide for export through 3 complementary entities: Techneau, Plasteau and Chaudreau.

All cross-cutting business lines – notably R&D, innovation and the design office – are coordinated by Gaeau Développement in order to offer comprehensive, custom and consistent solutions for different departments:

- **Floor equipments:** manhole covers, siphons and stainless steel gutters
- **Water engineering:** water pre-treatment, treatment, regulation and pumping
- **Stormwater and multi-purpose containers:** storage, regulation and recovery

With 180 employees committed for many years, Gaeau Développement and its 3 entities offer experts ready to support all your projects.

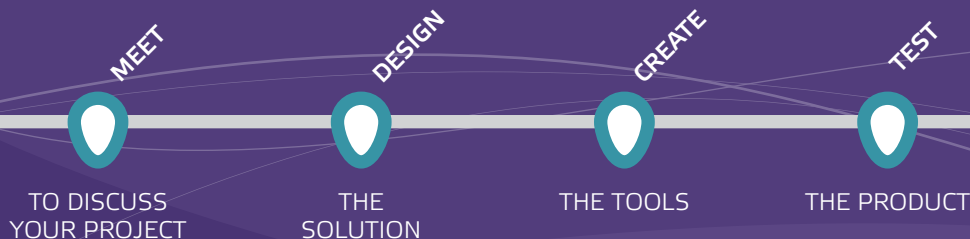

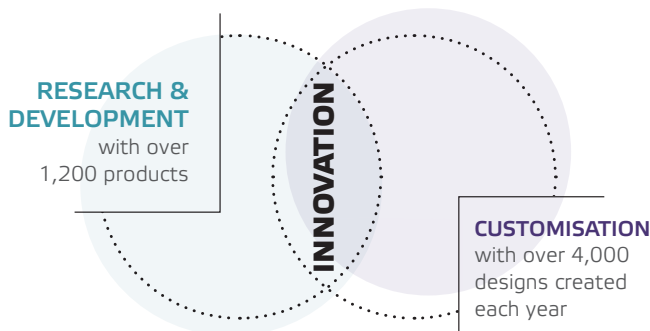

## ▶ A CUSTOMER SERVICE DEPARTMENT THAT LISTENS TO YOUR NEEDS

- A quote within 48 hours.
- Custom solutions to meet your needs.
- Compliance and quality guaranteed in accordance with international standards (including EN 858).
- Our international sales network includes a team of sales representatives in the field plus a sales team at headquarters

## ▶ INNOVATION FOR CLEAN WATER

Our design office has two complementary tasks:

- R&D revolutionises the product range to create the products and services of the future, anticipating market demand before it even emerges.
- customisation involves adjusting our existing models to the constraints of your sites.

## FROM DESIGN THROUGH TO MAINTENANCE

### ▶ EXPERTS IN WATER MANAGEMENT

Our centre of expertise is based in Marigny-le-Lozon, Manche (Normandy), halfway between the D-Day landing beaches and Mont-Saint-Michel. It covers 8 hectares, including 13,000 m<sup>2</sup> of workshops and offices.

The Gaeau Développement group's strength lies in the close collaboration and cross-functionality between the services of its 3 businesses. Our centre of expertise covers water management, plastic work and metalwork. The entire production chain is provided by our teams, ensuring consistent quality, made in France.

### ▶ CUSTOM EXPERTISE

We are widely recognised for our industrial expertise. This has allowed Techneau to industrialise its production facilities, whilst retaining the flexibility of custom products. Every stage of a product or service life cycle is guaranteed to deliver tailored and innovative solutions in short time frames.

## ➤ OUR BUSINESS LINES

### COLLECTION & ACCESS

- Stainless steel floor siphons
- Walk-in shower stainless steel gutters
- Communal shower stainless steel gutters
- Industrial stainless steel gutters
- Manhole covers

### PRE-TREATMENT & TREATMENT

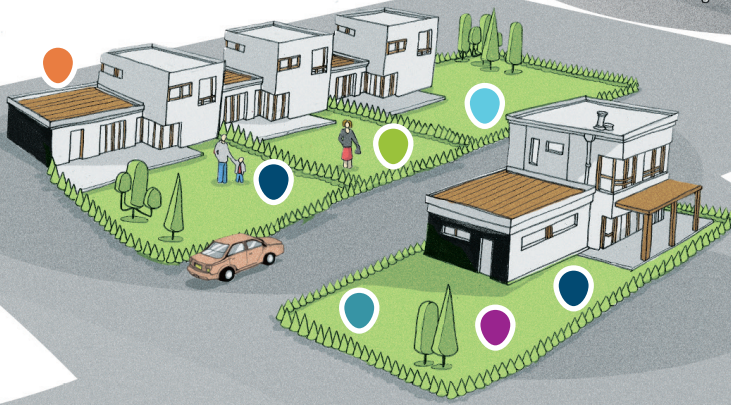

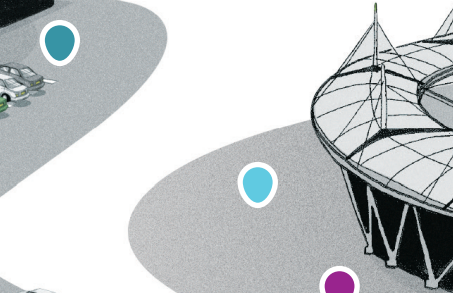

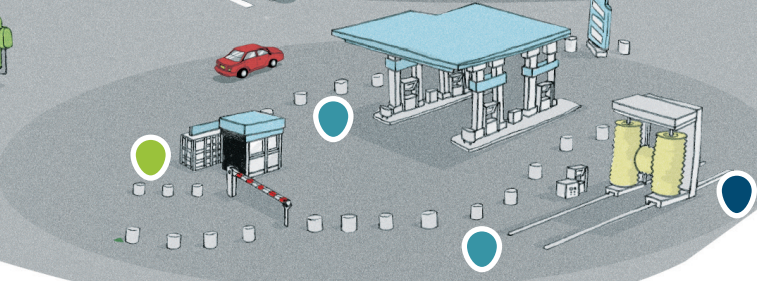

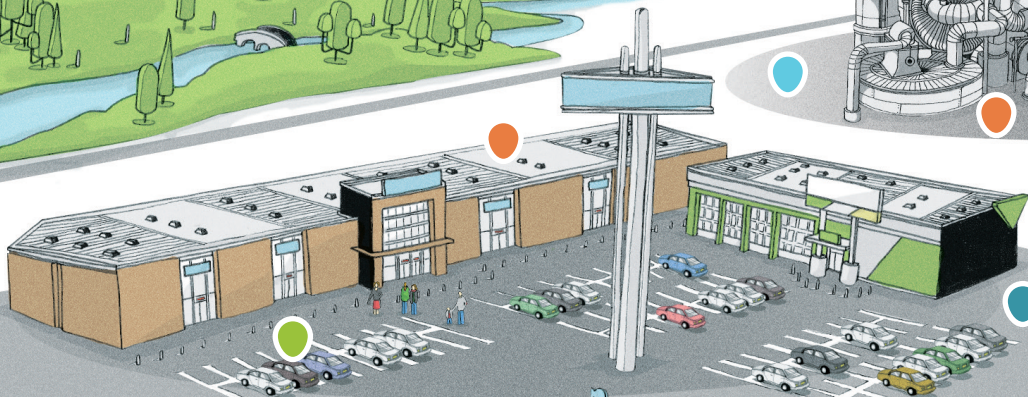

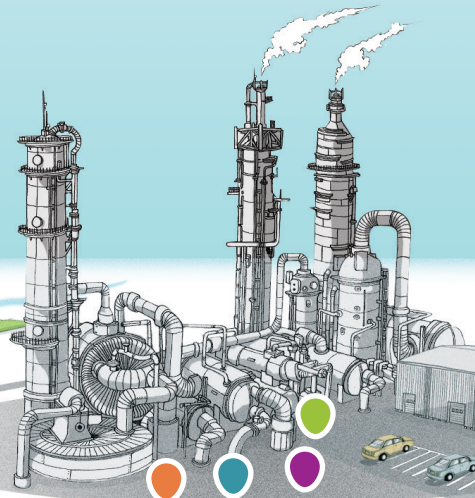

- Grease separators
- Oil separators
- Sludge traps
- Treatment units for plant protection, farming, wine production
- Stormwater units
- Progressive treatment units
- Treatment units for careening areas

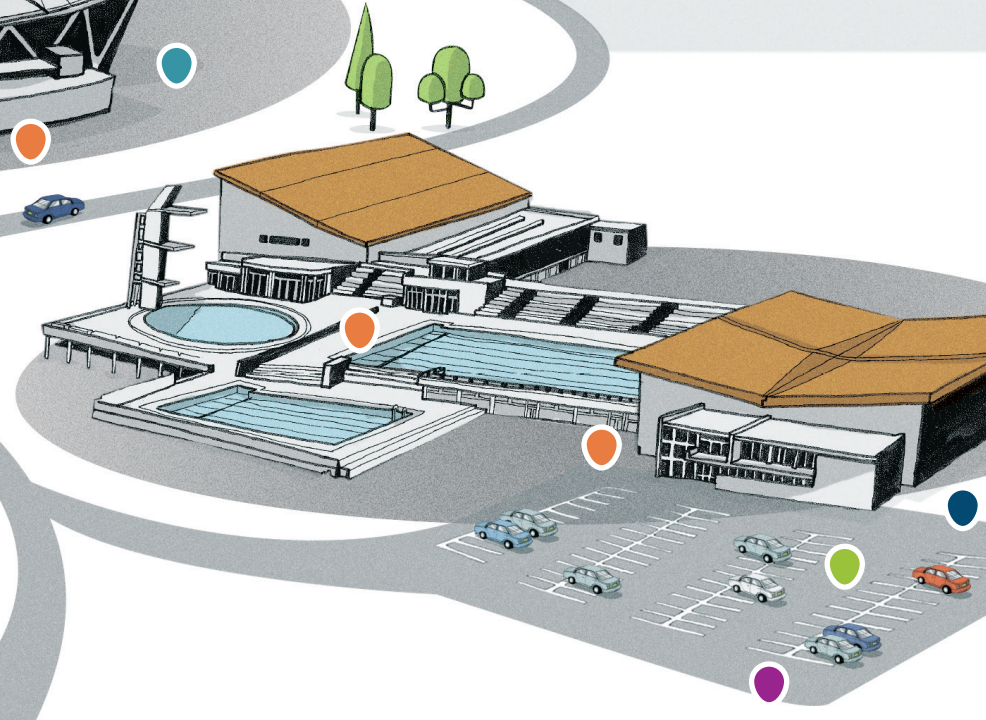

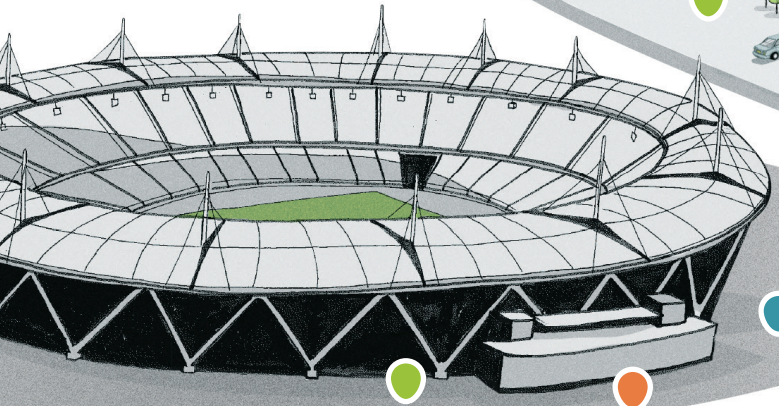

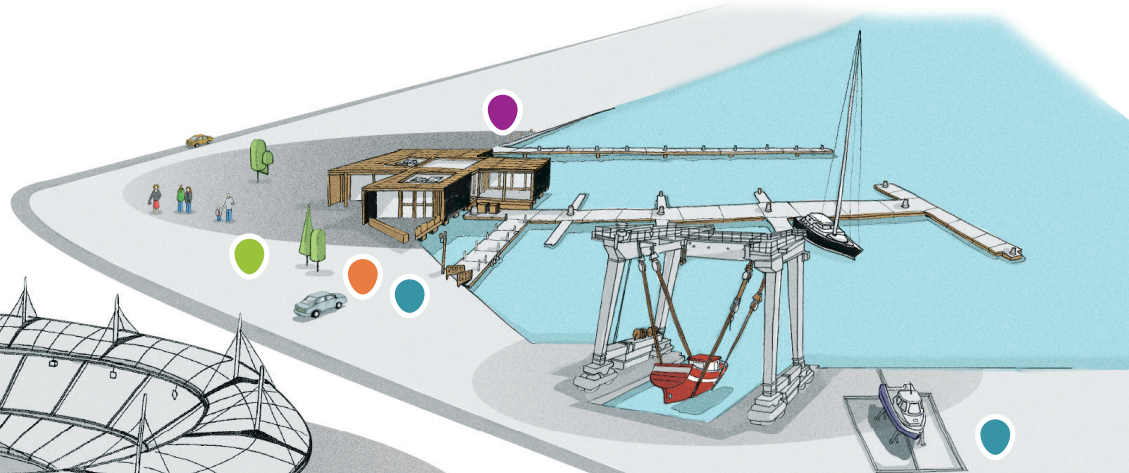

### PUMPING

- Individual pumping stations
- Small community pumping stations
- Community pumping stations

---

## REGULATION

- Parcel-based regulation tanks
- Large capacity regulation tanks
- Flow regulators
- Flow controllers
- Penstocks
- Control chambers

---

## STORAGE

- Effluent storage tanks
- Fire tanks
- Drinking water storage tanks
- Multi-purpose tanks

---

## RECOVERY

- Individual storage tanks
- Large capacity storage tanks
- Pre-equipped tanks
- Basic tanks
- Underground tanks
- Above-ground tanks
